

NAMS 1795-3:2017

First Edition

SANS 1795-3:2007

Edition 1.1

NAMIBIAN STANDARD

Road traffic law enforcement systems

Part 3: Distance-over-time speed measuring

equipment (fixed distance/variable time)

WARNING — Can only be used in conjunction with NAMS/SANS 1795-0.

Table of changes

Change No.	Date	Scope
Amdt 1	2007	Amended to change the title of the standard, to change the designation of SABS standards to SANS standards, to add a clause on type approval (clause 11), to delete an annex regarding notes to purchasers and annex C as a header for the bibliography, and to update the bibliography.

Foreword

This Namibian Standard is an identical adoption of South African National Standard SANS 1795-3, as allowed by the South African Bureau of Standards (SABS) in terms of the Agreement signed between NSI and SABS effective 16 March 2017.

This Namibian Standard was approved by the NSI Technical Committee TC 09 on Metrology, responsible for development of metrology standards in Namibia, that may be used by the relevant authorities as technical regulations.

Namibian standards are developed or adopted, in compliance with annex 3 of the WTO/TBT agreement.

Amendments to the original SANS 1795-3 are meant to give effect to legal implementation and/or enforcement of the standard in Namibia, by the relevant authorities as applicable in Namibia.

NAMS/SANS 1795 consists of the following parts, under the general title *Road traffic law enforcement systems*:

Part 0: General requirements.

Part 1: Laser speed measuring equipment.

Part 2: Radar speed measuring equipment.

Part 3: Distance-over-time speed measuring equipment (fixed distance/variable time).

Part 4: Distance-over-time speed measuring equipment (variable distance/variable time).

Part 5: Data capturing and recording devices for road traffic law enforcement.

A vertical line in the margin shows where the text has been technically modified by amendment No. 1.

Annex A forms an integral part of this document.
